Spring 1928

Terms and Conditions of Sale

OUR QUALITY:—After having traveled in the various countries in Europe, as well as different parts of this country, we find that native evergreen trees, Hemlock, Blue Spruce and White Pine, are among the choicest trees in existence. We have, therefore, decided to offer these beautiful evergreens in quantity lots at a small price, so they can be planted extensively. When we collect, we collect only the very best shaped plants, often a few hundred among thousands. Do not compare them with careless and inexperienced amateur collected. We are sure that our quality will surprise you and will mean a better and bigger profit to you. Carload lot is our aim, and we are especially prepared for handling large quantities of Hemlock, White Pine and Kusters Blue Spruce.

TERMS:—Cash must accompany order. To parties known to us, one-fourth cash with order, the balance in thirty days after receipt of goods.

BOXING:—Boxing charged at cost. Carload lot packed free.

SAMPLE:—We send samples at the hundred price.

SHIPMENTS travel at the cost and risk of purchaser. Please give shipping instructions.

COMPLAINTS:—We make no adjustments unless complaints are made within five days after receipt of goods. All errors on our part will be rectified promptly.

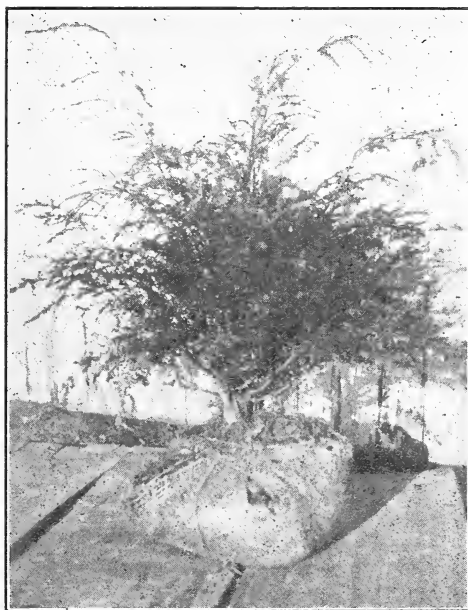

THIS PRICE LIST CANCELS ALL PREVIOUS OFFERS.

PRICES:—The prices are quoted in large lots only, and we are therefore quoting the smallest prices possible. Although we will ship any quantity at the hundred price, we expect to receive quantity orders, and reserve the right to reject odd orders.

GUARANTY:—We do not give any guaranty as to the growth.

*Martin Thomsen's Nursery Co.
Mansfield, Pa.*

Hemlock, *Tsuga Canadensis*

This is one of our most beautiful, popular and hardy evergreens. Makes at its native place a tall but very graceful tree. For gardens, parks and evergreen borders, as well as specimen in the lawn, it has no equal. No evergreen makes so handsome a hedge as it stands shearing very well. Hemlock will no doubt be "The One Evergreen" in greatest demand in coming years. Our 3-18" are seedlings carefully collected, and make fine lining out stock, the larger sizes usable for hedges also. They are heavily puddled before shipping. All sizes from 1-20 feet are very carefully collected and especially selected bushy plants, all with a heavy clump BxB in "Bos-

koop Burlap," and with the root adhering to the soil, all well adapted for landscaping. Of course transplanted one to two years, they will make exceptionally fine evergreens. Of all those collected last Spring and transplanted into our nursery, we had a loss of only 2%, although they were not under irrigation nor shaded.

	Per 100	Per 1,000
3-6 inch seedlings	2.00	\$ 15.00
6-12 inch seedlings	3.50	28.00
12-18 inch seedlings	6.00	55.00
1-2' bushy specimen, BxB	40.00	350.00
2-3' bushy specimen, BxB	80.00	750.00
3-4' bushy specimen, BxB	130.00	1,100.00
4-5' bushy specimen, BxB	230.00	2,150.00
5-7' bushy specimen, BxB	385.00	3,500.00
	Each	Per 10
7-10' bushy specimen, BxB	\$ 8.00	\$ 75.00
10-12' bushy specimen, BxB	12.00	110.00
12-14' bushy specimen, BxB	16.00	145.00
14-17' bushy specimen, BxB	20.00	180.00

White Pine, *Pinus Strobus*

One of the hardiest and most beautiful pines, with its bluish-green, sweet scented foliage. Very picturesque when old, well adapted for larger grounds and especially attractive as specimen in lawns and parks. We have an almost unlimited source, and are therefore able to supply these splendid evergreens in quality specimen and quantity lot.

	Per 100	Per 1,000
1-2' bushy specimen, BxB	\$ 40.00	\$ 350.00
2-3' bushy specimen, BxB	80.00	750.00
3-4' bushy specimen, BxB	130.00	1,100.00
4-5' bushy specimen, BxB	230.00	2,150.00
5-7' bushy specimen, BxB	385.00	3,500.00
7-10' bushy specimen, BxB	800.00	

Hydrangea

Hydrangea pan. grandiflora, rooted cuttings in frames, transplanted in field in July and August. They have much better root than cuttings taken directly from frames.

\$5.00 per 100; \$45.00 per 1,000

Roses

Following is a few of our surplus, grown in our nursery, and consist only of the most hardy varieties. We ship any number at the hundred price.

Clio \$40.00 per 100

Frau Carl Druschki, Gruss an Teplitz, General
Mac Arthur, Madame Caroline Testout, Madame

Edouard Herriot, Jonkeer J. L. Mock..... 35.00 her 100

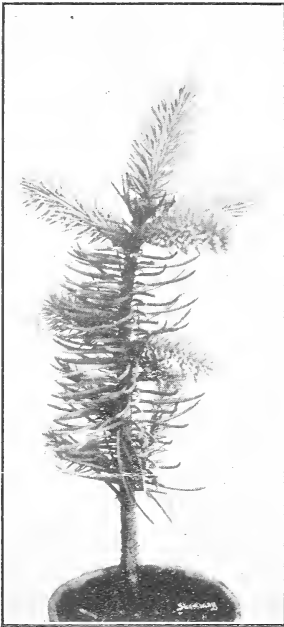

We have a number of climbers in the best va-

rieties at \$25.00 per 100

Kosters Blue Spruce

Grafts

Since the embargo of foreign nursery stock, the number of Kosters Blue Spruce have decreased so they have become "scarcer than hen's teeth." We have therefore taken the propagation of this very choice and admirable evergreen up extensively and are now offering the real, genuine Kosters Blue Spruce grafts for lining out to the trade; a product of vast experience in the most important nursery centers in the world.

We summer-graft our Kosters Blue Spruce and are convinced they are far better than those grafted in greenhouse, because of the longer time between grafting and lining out in the field, and therefore far better united. Contrary to those offered lately, which are grafted with older scions, we use "scions from this summer's growth only" and mainly with one straight bud and three side buds on top of scions, which assure you a right started plant, which will make a fine and uniform specimen right from the start, as you will notice in the picture. The plant was grafted last summer, and planted out in field this last Spring, without shade or irrigation. It gives you a good idea of the quality of stock we are offering. All stock will be shipped in early Spring, 1928, from 2½ inch pots. They will have a firm and heavy rooted ball, so there will be no loss in transplanting. We only cut the original stock partly back, and advise you to cut the rest along in June. Thus we are protecting them while in transit; also in transplanting. Furthermore, it will help them to sprout earlier.

Price \$70 per 100; \$650 per 1,000

On larger quantity, write for prices.

Hardy Perennials

We have a good supply in field grown perennials and we believe you will not be disappointed, if you let us take care of your requirements. All our hardy perennials are fresh dug, the same day they are shipped, with a good ball of earth on the roots; therefore you will have no loss in transplanting, as they are full of life.

All the perennials are for Spring 1928 shipment only.

Achille, "Boule de Neige," pure double white flowers.

Aquilegia, long spurred (Columbine), from the finest strain obtainable.

Bellis Perennis, double mammoth flowers.

Campanula, medium, single mixed.

Campanula, medium, double, mixed.

Shasta Daisy, "Alaska," the largest of its type.

Delphineum Belladonna, light blue.

Delphineum Bellamosum, dark blue.

Digitalis, Giant Shirley, enormous blooms.

Gaillardia grandiflora, superb mixed. Always choice in borders and cuttings.

Gypsophylla pan., single white.

Gypsophylla pan., fl. pl., double white, from seed.

Lathyrus latifolia, mixed, hardy sweet peas.

Papaver nudicaulis, "Iceland Poppy." Choice for cutting and borders.

Papaver Orientalis, "Oriental Poppy." Very showy scarlet flower.

Phlox sublata, pink, fine for rockery.

Pyrethrum hybridum, double. One of the best perennials.

Sedum spectabilis. Deep pink and good for rockery.

Scabiosa Paponica. Lavender blue flowers.

Sweet William. Some old favorites.

Tritoma hybridum. Flame flowers in spikes.

Tymus vulgare. Another fine rockery plant.

Viola Cornuta Admiration. Dark blue.

Viola Cornuta Perfection. Light blue.

Price per 100, \$6; per 1,000, \$50
